

Hi my name is Scott Brown (AKA DJ SCOTTY-B) and I was born in Dallas on March 31, 1975 and grew up in Fort Worth, Texas. I have been producing electronic dance music since 1990. I have been playing electronic keyboard for 15 years and also played trumpet in the band for 6 years.

I graduated from Art institute of Dallas in 1995 with a Associates in Applied Science in Music, Video, Business and produced my first album called "Flyaway" during my studio time at school.

Dj Scotty-b has been in underground electronic scene since 1995 doing live pa at local parties in Dallas like "Back to Base X" at the "Sandbar" and the "Back Base X" Halloween forest party. My most recent Dj residence was at the Slipp-Inn in Dallas 2008.

I started my own electronic record label called Subtronica in 2008 and have EP dance single on Itunes called "Beyond Love".

Currently Scotty-b is in the studio working on electro/clash remixes for my next album coming out at the end 2008.
